ABOUT US

ABOUT US

We provide a one stop solution for your pharmacy and dispensary needs by tailoring our range to meet all your functionality and operational requirements.

We've been developing our knowledge and customer network over the last 10 years to present the most advanced and practical retail and dispensary storage solutions world wide. We offers combinations of pharmacy storage solutions and have over 300 installations globally which means they work intimately with wholesalers, pharmacy groups, independent key stakeholders and decision makers. Importantly, this is a direct result of following international trends and listening to customers' needs.

As a result, pharmacists have confidence in a trusted product range, and in proven customer service and support, that gives peace of mind through every stage of transition and change.

FOR PHARMACIES – WE ARE PHARMACISTS PARTNER

PRODUCTS

We have created innovative solutions for pharmacy storage systems that are Thermally painted metal shelves , easy to use and modify.

Through a number of skilled engineers and in cooperation with pharmacists , after many successful experiences. As free standing storage system units with the ability to adjust according to the pharmacy need and also we can add a workbench and plastic boxes for small Tablets and we have provided round shelves that Medication dispensing area and that help to storage a large quantity in small space, sliding and circular shelves helps in maintaining the shelf life Medicines and reduce the rate of errors.
