Storage System

Figure system pharmacy solution offering a full service for the hospitals, pharmacies and healthcare.

Figure system pharmacy shelves designed the shelves and manufactured for pharmacy workflow and the storage pharmacy solution.

Figure system is manufacturer of pharmacies storage system, that requires convenient storage.

Figure system is Products produces individual storage and systems for pharmacist, with quality products from Avex Steel Products you will have more storage space and reach higher productivity and most importantly, at a very competitive price.

Our solutions provide you with a better way to manage pharmacy. Developed with expertise gained from over 17 years' experience in hospital pharmacies, our solutions are designed to help you improve the quality of patient care while alleviating time constraints and has always been to provide solutions to rationalize and organize spaces.

The principles of our company philosophy are framed in the optimization of production processes, the increase in storage capacity and efficiency as well as the reduction of access times.

The shelves are fully adjustable, giving total flexibility where a variety of product sizes needs accommodating.

The system is a wide range of accessories including the dividers, fronts and plastic bins.

Storage Solution

When Figure system company started to develop their drawer units for use in pharmacies, quality of materials and functionality have become the dynamic axes which have allowed to successfully transform its drawers from the anonymous container into an active component in all types of surroundings.

The solidity, security and reliability of products, born from the demands of our customers. Our customers have always been our best allies in our search for increasingly innovative solutions.

We know that in order to be great we have to be able to listen.

Safe and secure

Handling of pharmaceutical requires professional care and our system helps reduce the risk of errors while increasing the safety security and the quality of works. efficient and logical replenishment and picking of stock safe for the pharmacist.

Quality

Paying attention towards quality, and the end users need has positioned our concept on the high end of the market, allowing it to win many awards from important associations for design.

Lengthy experience and modern technology combined with a spirit of innovation and creativity these are what enable us to realize our partners' ideas with custom solutions.

Our dynamic, highly-motivated team of professionals, supported by the most modern equipment, designs and constructs high quality products to stringent delivery schedules.

To guarantee the high quality standards that have made our concept an international leader in the fabrication industry, we are continually updating our technological resources. We pay special attention to the interface between our technical staff and the production department, so as to ensure information flows which feed into our total process control procedures.

We follow the finest details in manufacturing, and therefore we manufacture our products in many countries such as Portugal, Spain, Vietnam and Italy while maintaining the highest quality standards, which helps us to offer the best prices and quality.
